AUDIT TYPE:

Announced Audit

AUDIT SCOPE:

This facility is approximately 45000 sq ft facility that is completely enclosed with 4 dry packing lines and 5 coolers. There are approximately 60 full time employees at full strength and on this date two lines were packing mangoes with approximately 40 employees. All product is conventional and there are no allergens in the facility. Product arrives from approved suppliers in Mexico and are track via Famous tracking system. The items arrived and are checked and placed into appropriate cooler until needed to be packed or shipped in original container. On this date the mango packing line was being used. The product is taken from the box and placed into clamshells. Each clam shell receives at sticker with tracking information and then boxed again and palletized. Product is then placed into cooler until shipment. Limes are repacked with no water addition. Avocados are received and shipped in original container. There are no immediate risk to and or around the facility.
